

**ABSORBENT COMPOSITION OF MATTER FOR ODORIFEROUS  
SUBSTANCES AND RELEASER OF DIVERSE ACTIVE INGREDIENTS  
AND ARTICLES INCORPORATING SAME**

**ABSTRACT OF THE DISCLOSURE**

A new product is described characterized by its qualities to absorb undesirable scents present in the air, while serving at the same time as a carrier for aromas, fragrances, flavorings, repellents, attractants and other active ingredients. The active ingredients are gradually released by the carrier, which is compatible with the environment and current tendencies towards the use of organic and biodegradable products. The composition comprises a carrier and an active ingredient. The carrier is characterized as being particles obtained from the milling, separation, air wash and classification of the different fractions obtained from corncobs. An article of manufacture and a method of making the article containing the absorbent composition of matter is also disclosed.
